

City of Maywood Park

10100 NE Prescott St., Suite 147, Maywood Park, OR 97220

Seasons Greetings-

We are in the homestretch of 2021. We have finished some big projects around the city and are working on a few more.

Included you will find an updated calendar of events, which include the next several months of council meetings and topics. Please don't forget the resident appreciation event on November 20th and the Gingerbread House and Cookie competition. This year's Christmas light theme is Santa's Toy workshop. Judging ends at 8pm December 15th.

Our December 6th meeting welcomes Bob Cozzie, director of BOEC (911 service). Please bring your questions.

With the holidays, we have moved the January meeting to January 10th. The meeting brings us PACE ENGINEERING and the start of the ball rolling, once again, on the wastewater project. We are able to use room 305, with very limited capacity, for this meeting. If you are interested in joining us in-person, please email or call the office. This meeting will also be on ZOOM. If you are able to attend via ZOOM, I encourage you to do so to leave those who aren't on-line, the opportunity to join in this meeting.

Maywood Park is working closely with ODOT and Portland Water Bureau. If you see them out working, please let them do their jobs. Whether it is trimming trees along the multi-use path or the inconvenience of having the water shut off for a few hours, they are doing us a favor and saving us money by doing this for us. There is no call for yelling at them for doing their jobs.

Please remember the office open house on Wednesday December 8th, 4pm - 8pm. Stop in and say hi to Wendy and Rene' and join them for a cup of hot cider and cookies.

(over)

MAYOR MICHELLE J. MONTROSS
COUNCIL PRESIDENT MIKE REYNOLDS

Councilor Jim Akers, Councilor Miriam Berman, and Councilor Robin Wisner
503-255-9805

While we are waiting for street sweeping December 13, please make sure any catch basin in front of your yard or drive is cleared of debris, including but not limited to pine needles and leaves. This will help with flooding.

Time is running out to turn in your forms for a city directory. Councilor Berman needs 125 residents to participate in order to proceed with composing a city directory. If you are interested in being in a directory and are in need of a form, you may reach out to the office or Councilor Berman and someone will get one to you.

If you are interested in donating to *GAP, a grassroots organization, and would like someone to pick up your donation, please reach out to Council President Mike Reynolds 503-318-3302. He would be more than happy to stop by and pick up for you. *GAP is in need of hygiene kits, warm clothing and canned food products.

With so much happening and a continued growing calendar, please check the city website often. Any updates will be posted there first followed by social media. Stay informed.

Happy Holidays
~Mayor Montross

Winter Safety

The Holidays are coming and so is winter weather. Winter, this year, is predicted to be colder and wetter than last year with a likelihood of one or more snow storms. That all adds up to an increase in dangerous driving conditions.

Here are some tips and information that may help you better prepare for the upcoming change in the weather;

Turn your vehicle lights on if they do not turn on automatically, day and night as our daylight times have shortened and you could be driving in inclement weather.

Practice safe nighttime driving to include dimming headlights when appropriate, keeping your vehicle windshield clean, providing more stopping/reaction distance and routinely inspecting your vehicle.

Utilize winter tires if possible. Slow down, icy slick roads are sometimes not seen in time.

Try to have your gas tank at least half-full. If your vehicle becomes disabled, it's usually best to stay in your vehicle as walking during inclement weather can be very dangerous. Remember that dangerous driving conditions can also cause increased response time for emergency services. Have your cellular phone available along with a charger in the car. If you are disabled in a roadway causing a hazard, or if you need a Deputy to assist you, call the non-emergency number at 503-823-3333. If you feel you need an immediate emergency response please call 911.

During Inclement weather conditions it can sometimes be better to stay home rather than drive if at all possible. Have an emergency car kit that is properly equipped for winter travel. At a minimum, this kit should include the following;

- *First aid kit
- *Flash light
- *Snow and ice scraper
- *Water/snacks
- *Blanket/sleeping bag
- *Battery booster cables
- *Tow chain/rope
- *Emergency flares/reflectors
- *Cell phone adapter/charging cord

Inclement weather can create challenges for our community's most vulnerable citizens. No matter the inclement weather event, there are people who may need your assistance. Please prepare a plan to check on those who may be in need. Prepare for potential power outages, extended periods of below-freezing temperatures and anticipate problems or needs that can arise. Remember to plug any portable heater directly into the wall outlet, do not use a power strip. Conditions that prevent people from obtaining critical services or supplies can create life-threatening situations. Our Patrol and HOPE Team Deputies will continue to assist those that are houseless and those that lack the necessary resources to protect them from inclement conditions.

In addition to inclement weather conditions the holiday season means an increase in package deliveries; which, could be a target for thieves. Online shopping can be a safe and stress free way to order items from the comfort of home but there are some steps you can take to make sure your package is received.

- Try to avoid having items delivered when you're not home
- Have packages delivered to your workplace or to a friend or relative you know will be home
- Request signature confirmation upon delivery
- Consider doorbell camera options, like those made by Google, Ring, and many other manufacturers. These not only let you know when a package has been delivered but lets potential thieves know you're watching.
- Ask your carrier to place the package in an area out of plain view

If you are the victim of a package theft or if you see suspicious persons or activity in your community please contact the non-emergency number at 503-823-3333.

With these safety tips in mind I hope everyone has a great Holiday season, take care of yourselves!

Lieutenant Doug Asboe
